TM data II

TM-F Family

IIoT

We bring technologies together

TM data II

- Respirable dust
- Direct reading of mass concentration
- Portable and easy to operate
- Convenient data evaluation with analysis software
- Measurement range 0-100 mg/m³

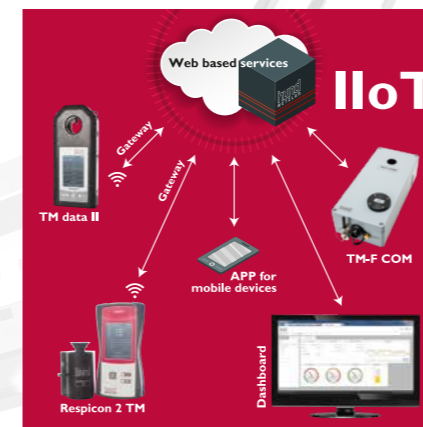

TM-F • TM-F COM • TM-F Ex

- Respirable dust
- Analog and digital outputs
- Stationary measurement of mass concentration
- Intrinsically safe device for mining applications (TM-F Ex)
- Measurement range 0-2 mg/m³, 0-20 mg/m³, 0-400 mg/m³

Respicon TM • 2 TM

- PM2.5 (PM4), PM10, Total dust
- Direct reading and gravimetric sampling
- Portable/stationary operation
- Convenient data evaluation with analysis software
- Measurement range 0-200 mg/m³ or 0-10 mg/m³

Online Dust Monitoring

- Live, in realtime and worldwide available
- Hund web-based services
- Alerting and trending
- Customizable front end
- App integration
